

# Metallic, Non-Metal Labels

## Outperforming Expectations:

Brady's line of metallic, non-metal labels exceed expectations in most industrial environments. Designed to work with our easy-to-use software and our full line of Thermal Transfer Printers, these materials will allow you to create the sharp, professional rating plates and other labels you need.

## Load, Click, Print – it's that easy.

These labels, coupled with Brady's IP™ Thermal Transfer Printing System, are the only metallic product available for hassle-free printing. Offered with our industrial-strength adhesive, as well as our Mondo Bondo™ adhesive, you can trust our labels in dirty, oily environments, and you will easily wipe off the label front. Print on-demand labels faster, easier, and with more efficiency than other systems by using Brady's metallic, non-metal label and IP Printer combination.
